

# Dough numbers

Build the number.

Write the number.

Find and circle the number:

Trace and Rainbow write.

Build the number.

Numbers 0-10

# Directions

This is a great activity for students to practice sight words! Included in this pack is numbers 0-10. There are two printing options, black & white (to save ink) and color. Students will build the number on the top of the mat then write the number independently. They will then find and circle the number in the first box. In the second box, students will trace the number then pick three colors and rainbow write it. In the last box, students build the number with dough balls or fill in the squares. These sheets can be placed in dry erase sleeves or laminated so they can be used over and over. Perfect for math centers, early finishers, and morning tubs! Please let me know if you have any questions!

# Directions

Students will build the number on the top of the mat.

<p><b>Build the number.</b></p>  <p><b>Write the number.</b></p> <hr/> <hr/> <hr/>	<p><b>Find and circle the number:</b></p> <p>0 3 2 3 4 9 3 3 3 6 3</p> <p><b>Trace and Rainbow write.</b></p>   <p><b>Build the number.</b></p> <table border="1"><tr><td></td><td></td><td></td><td></td></tr><tr><td></td><td></td><td></td><td></td></tr></table>								

They will then find and circle the number in the first box.

In the second box, students will trace the number then pick three colors and rainbow write the number.

Students will practice writing the number independently.

In the last box, students will build the number using dough balls or coloring the squares.

# Directions

Two printing options for each word, black and white to save ink, or color.
