Students will use a dice to roll a colored snap cube. The student will then find a matching snap cube and place it on the mat. The student will then color in one square on the graphing recording sheet above the matching color. Students will keep rolling, matching, and graphing until the mat is full. Once the mat is full, students can compare each column of the graph to see which color is the greatest and the least.

10 mats included

Haunted House **Jack-o-Lantern** **Witch**

Roll, Snap, & Graph **Roll, Snap, & Graph**

Witch's Brew **Skull**

The image displays ten different graphing mats, each with a unique Halloween theme and a corresponding grid layout. The mats are arranged in a grid-like fashion. Each mat includes a legend at the bottom showing dice faces with 1-6 dots and corresponding colored circles. The themes and their grid shapes are: Graveyard (a simple grid), Haunted House (a house-like shape), Jack-o-Lantern (a pumpkin-like shape), Witch (a witch-like shape), Witch's Brew (a cross-like shape), and Skull (a skull-like shape). The other three mats have unique grid shapes. The colors used for the circles include purple, green, orange, yellow, red, and grey.

Each mat includes a corresponding graph
