What Teachers are Saying...

"I really enjoyed using this resource because not only were we learning about bats, but it was a fun activity for the students as well. We were able to share this with our parents during open house."

"I love giving the kids a chance to show their learning in different ways. The idea of using a file folder was awesome and the kids were so proud of their finished projects and so much more engaged them just doing it in a notebook. They couldn't wait to take their folders home to share with their families. Thank you!"

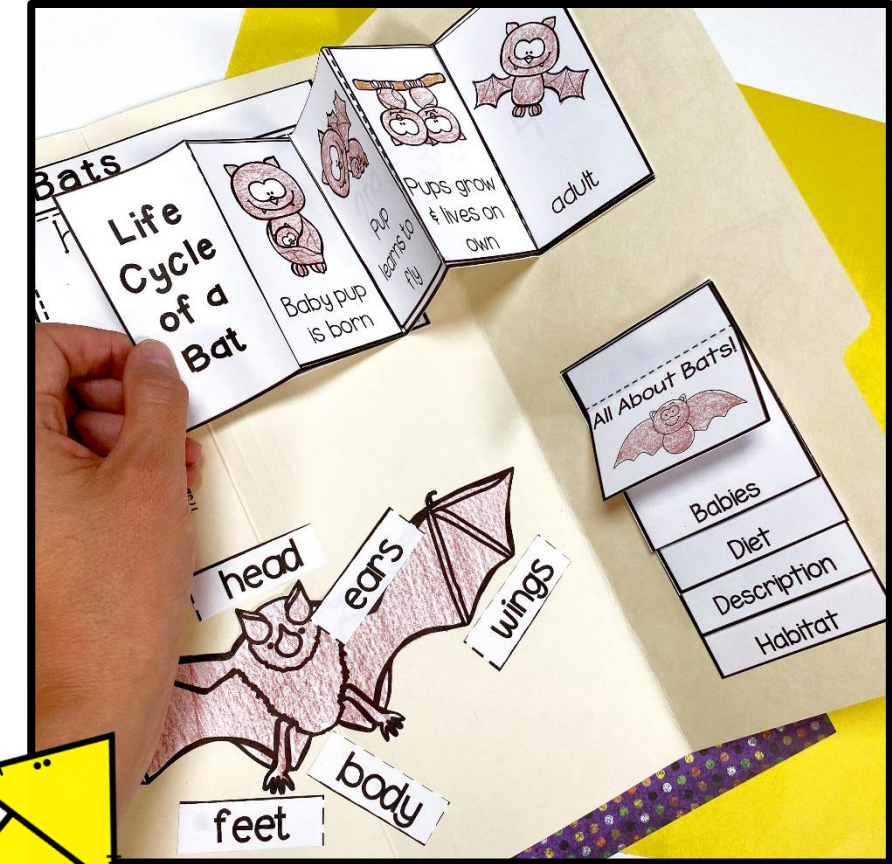

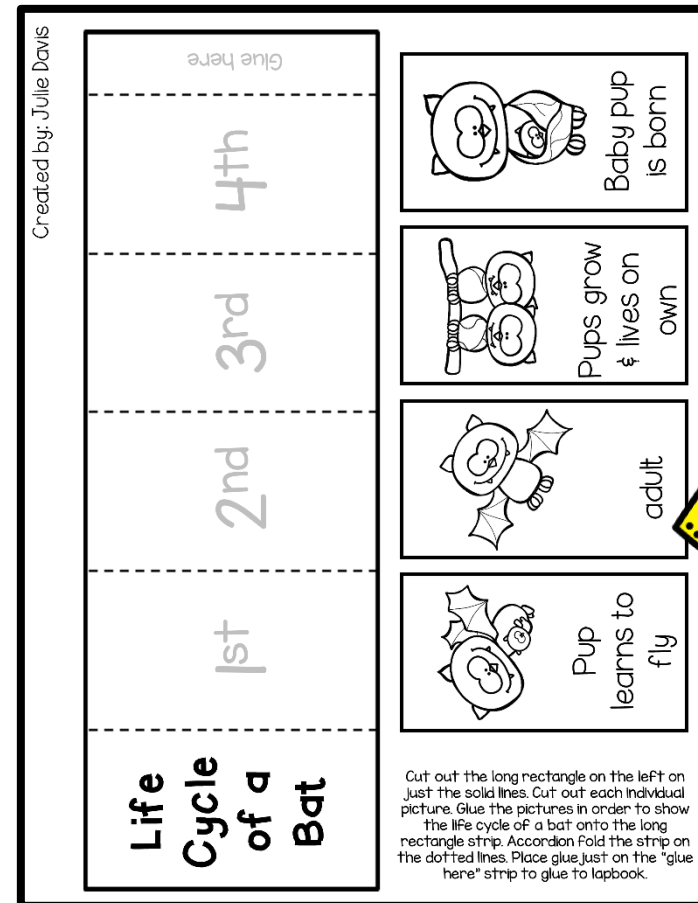

"Kids loved working on this and the parents really enjoyed their work once it was sent home. We got a lot of compliments on it!"
