# What Teachers are Saying...

"My students had fun with these activities during holiday center rotations! I enjoyed the fine motor portion of the snap cubes."

"My students really liked this activity, they are still trying to master the "snap" cubes, but can easily place the cubes on the cards. They enjoyed building the objects on the cards and it was a helpful tool in reinforcing counting and number recognition."

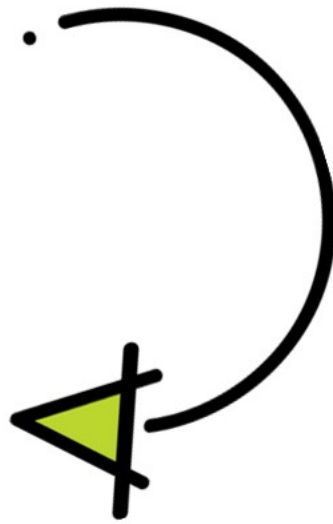

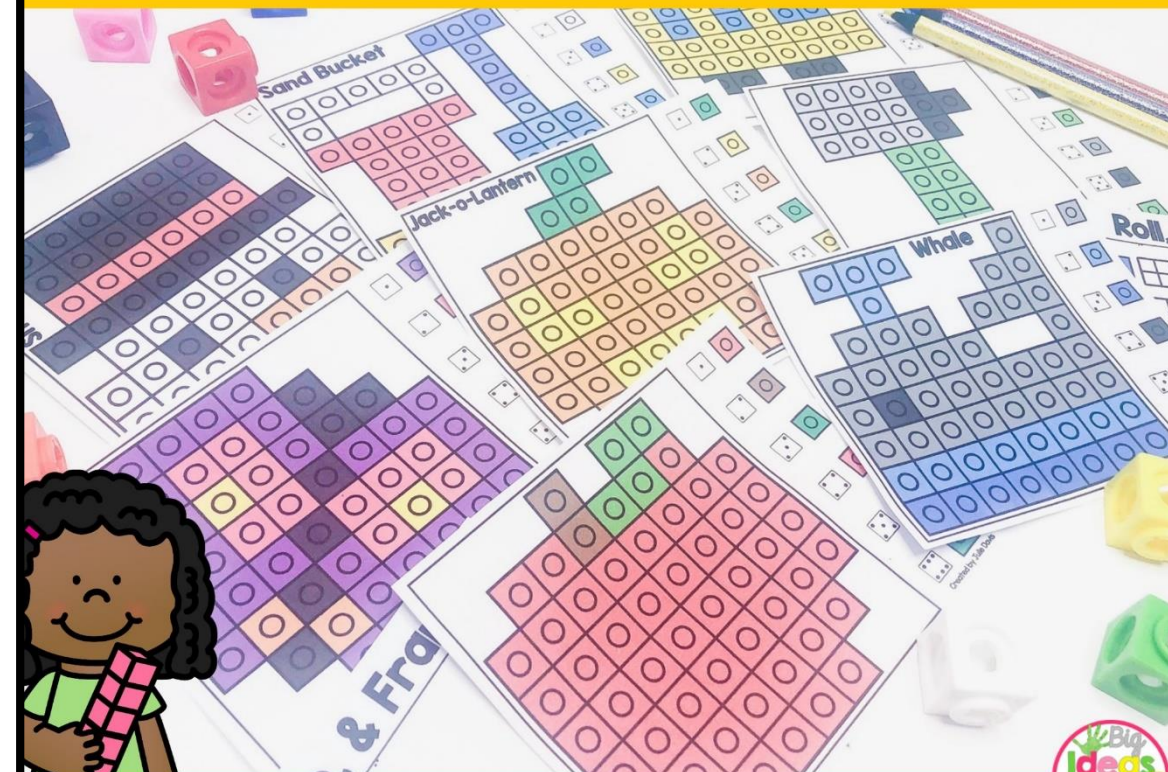

"My students love it. What a wonderful hands on activity. Thank you for making this so easy for me to use in the classroom."
