

# Flippy Flaps

# Insects

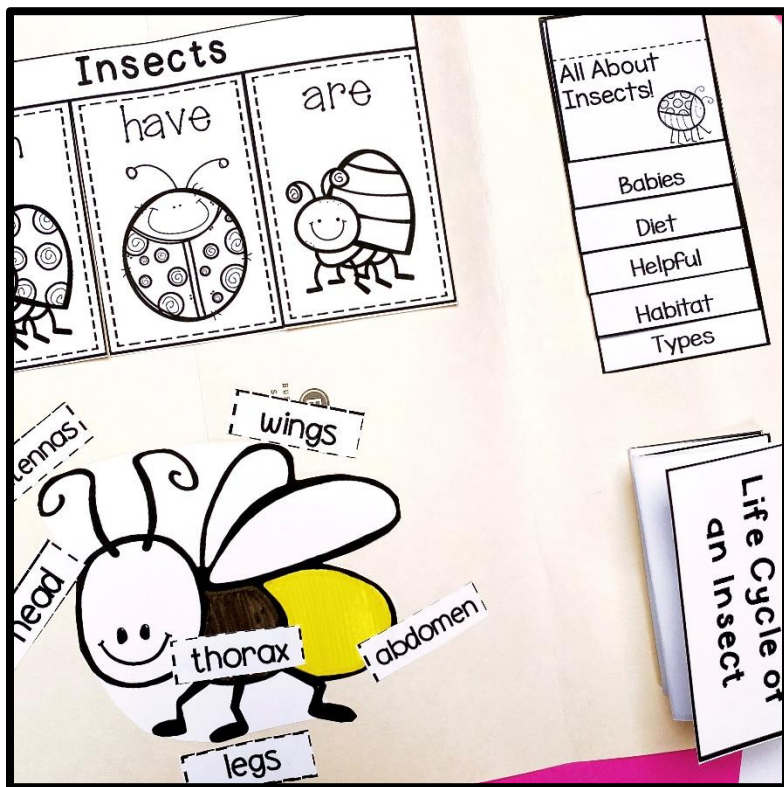

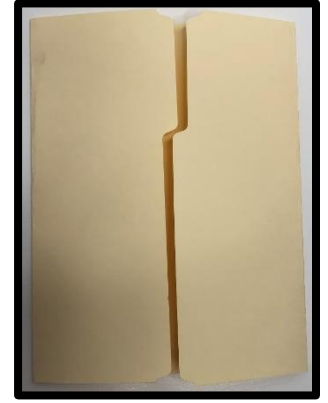

Created by: Julie Davis

# Teacher Tips

## 1 Prepare Materials

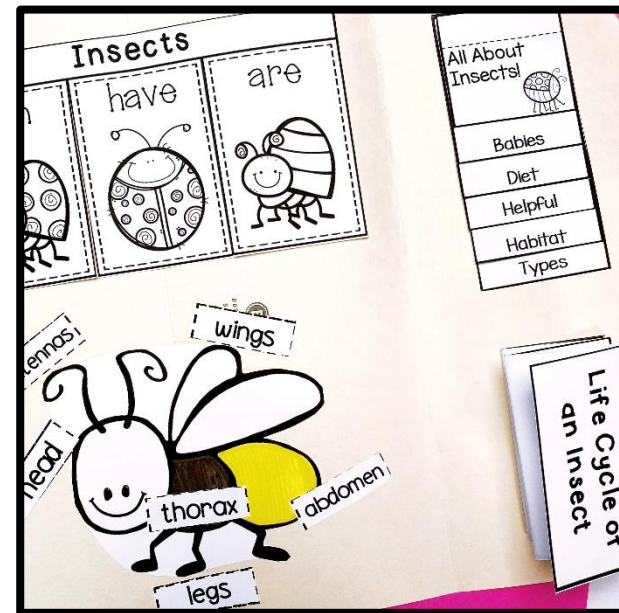

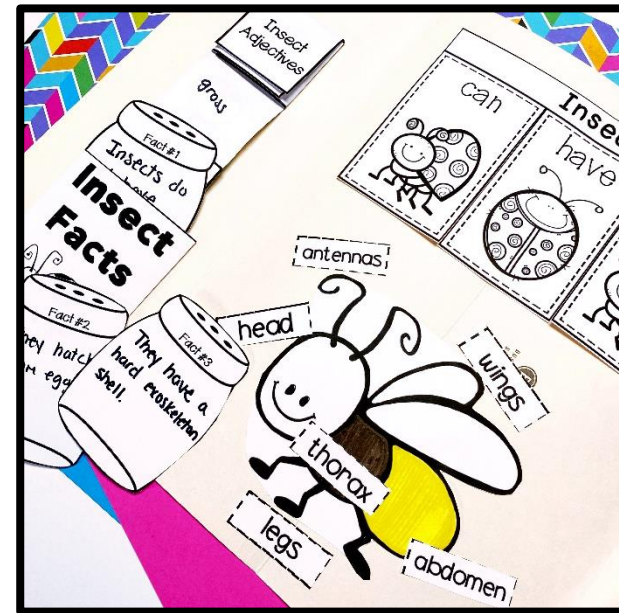

- scissors
- glue
- markers, crayons, or colored pencils
- copies of lapbook pages
- file folder, construction paper, or notebook (fold one side to the middle, then fold the other side to the middle)

## 2 Create Lapbook

- Break the activities up into different days or sessions. I like to do one activity (flap) a day.
- Students will cut & glue each flap to the folder and complete the activity.
- Complete various activities throughout the week to place into folder.
- Decorate the front.
- Bring home to share with families.

This fun research project has everything you need to showcase what you learned about Insects!

“This is an awesome insect unit activity! Had my kiddos do a little more of this book each time they learned something new about insects. They couldn't wait to take them home and show their families.”

# What's Included:

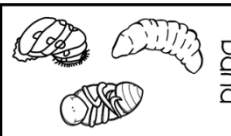

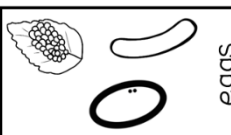

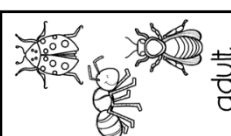

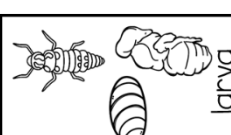

- Insects can/have/are
- Insects KWL
- Label an Insect
- Insects Facts
- All About Insects
- Life Cycle of an Insect
- Insect Adjectives
- Sort Insect/Not Insect
- Types of Insects
- Insect Vocabulary
- Compare Insect/Arachnid
- Favorite Insect Book
- Class Graph Favorite Insect
- and more

# What's Included:

Each template has step by step directions to tell you how to cut and fold each flap!

Life Cycle of an Insect

1st		pupa
2nd		eggs
3rd		adult
4th		larva

Glue here

Cut out the long rectangle on the side on just the solid lines. Cut out each individual picture. Glue the pictures in order to show the life cycle of an insect onto the long rectangle strip. According to fold the strip on the dotted lines. Place glue just on the "glue here" strip to glue to lapbook.

Insects

can	have	are
		

Cut out the insect and each box with words. Use the words to glue to the insect to label the parts.

Cut out the large rectangle. Then cut just the solid vertical line and stop before you get to the strip at the top. Place glue on the horizontal strip that says Insects. LIFT each Flap to write what Insects can, have, & are

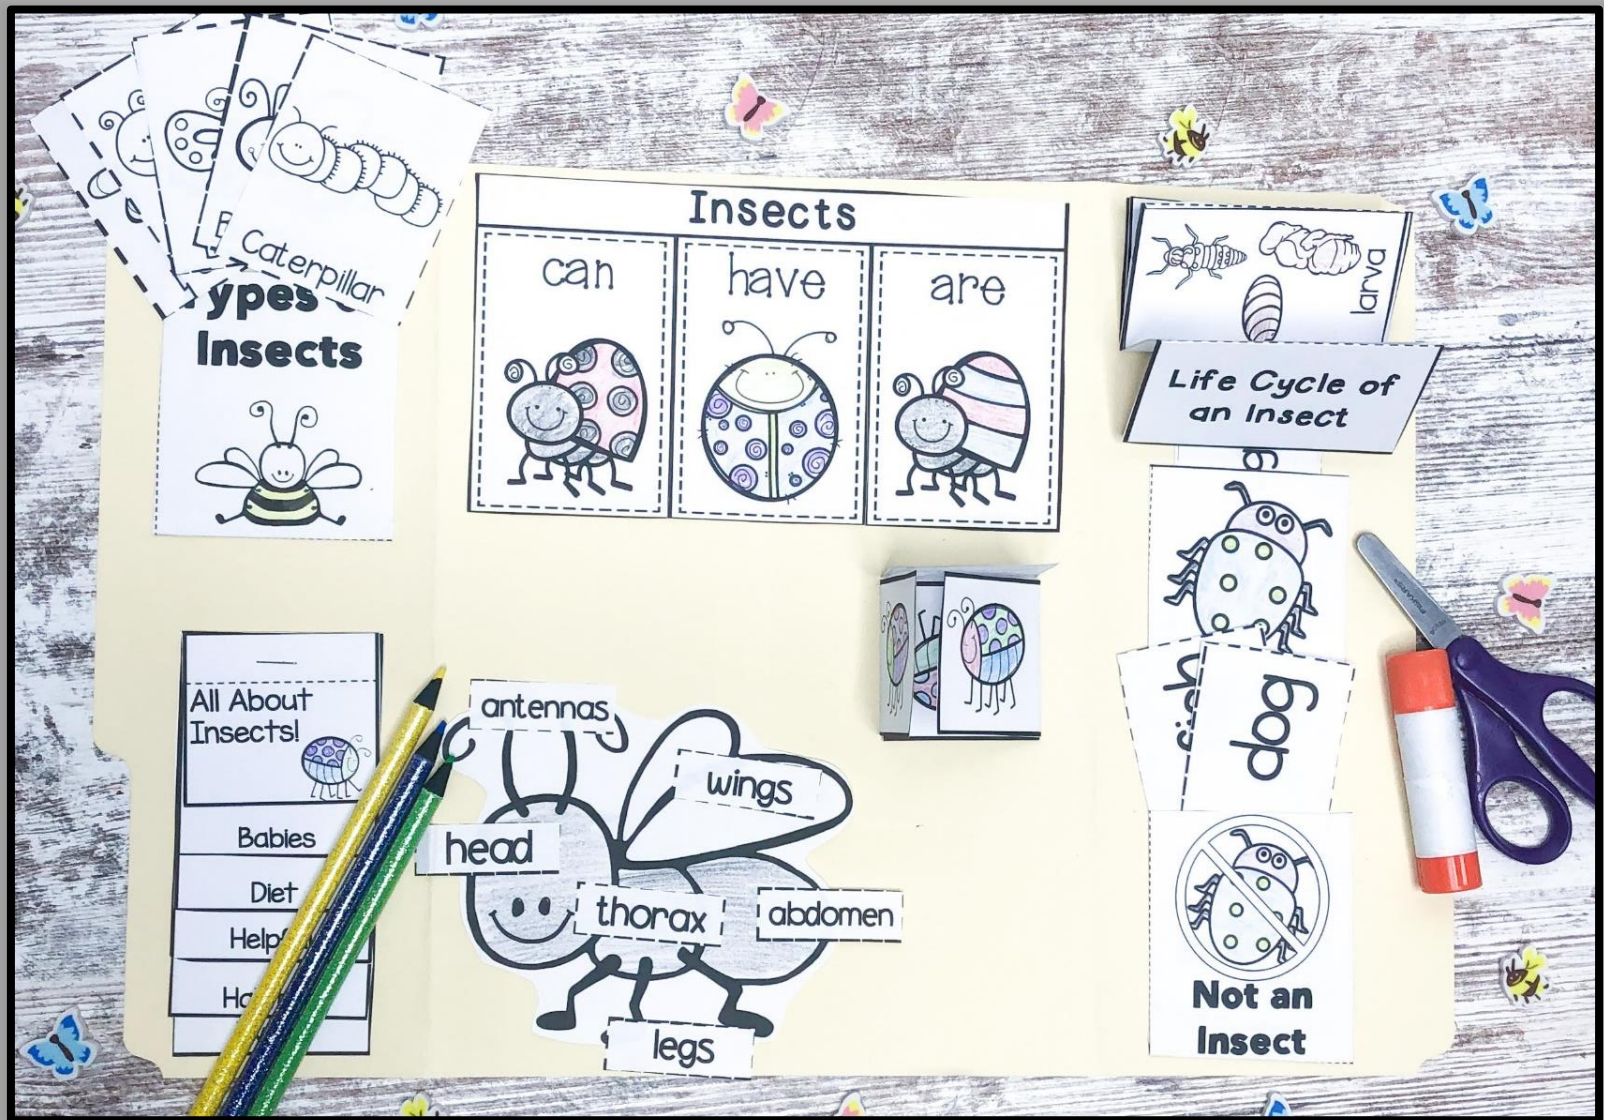

thorax  
wings  
legs  
abdomen  
head  
antennas

# Layout Suggestion

Please feel free to use this however best suits the needs of you and your students. You may pick and choose which flaps to use. Do not feel like you must use them all, they will not all fit onto one file folder.

# Easy to Make and Assemble

Simply print the templates and let your students complete and create!

These templates go just beyond a worksheet. They become interactive!

# Printable Templates

Lots of templates included to use in the lapbook. Pick and choose which ones work best for your students.
