a peek inside

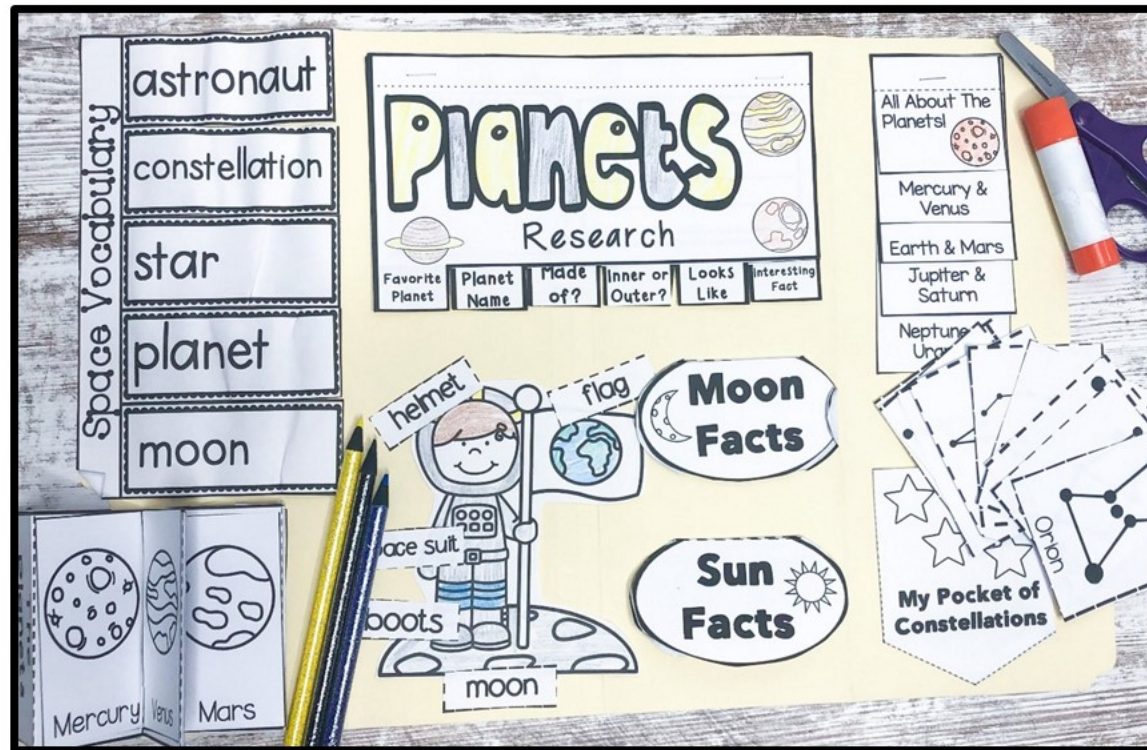

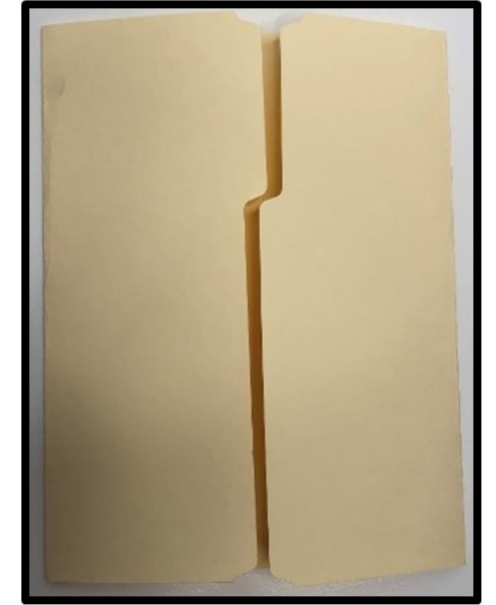

# Teacher Tips

## 1 Prepare Materials

- scissors
- glue
- markers, crayons, or colored pencils
- copies of lapbook pages
- file folder, construction paper, or notebook (fold one side to the middle, then fold the other side to the middle)

## 2 Create Lapbook

- Break the activities up into different days or sessions. I like to do one activity (flap) a day.
- Students will cut & glue each flap to the folder and complete the activity.
- Complete various activities throughout the week to place into folder.
- Decorate the front.
- Bring home to share with families.

# What's Included:

Label an Astronaut

Inner/Outer Planet Sort

Phases of the Moon

Types of Constellations

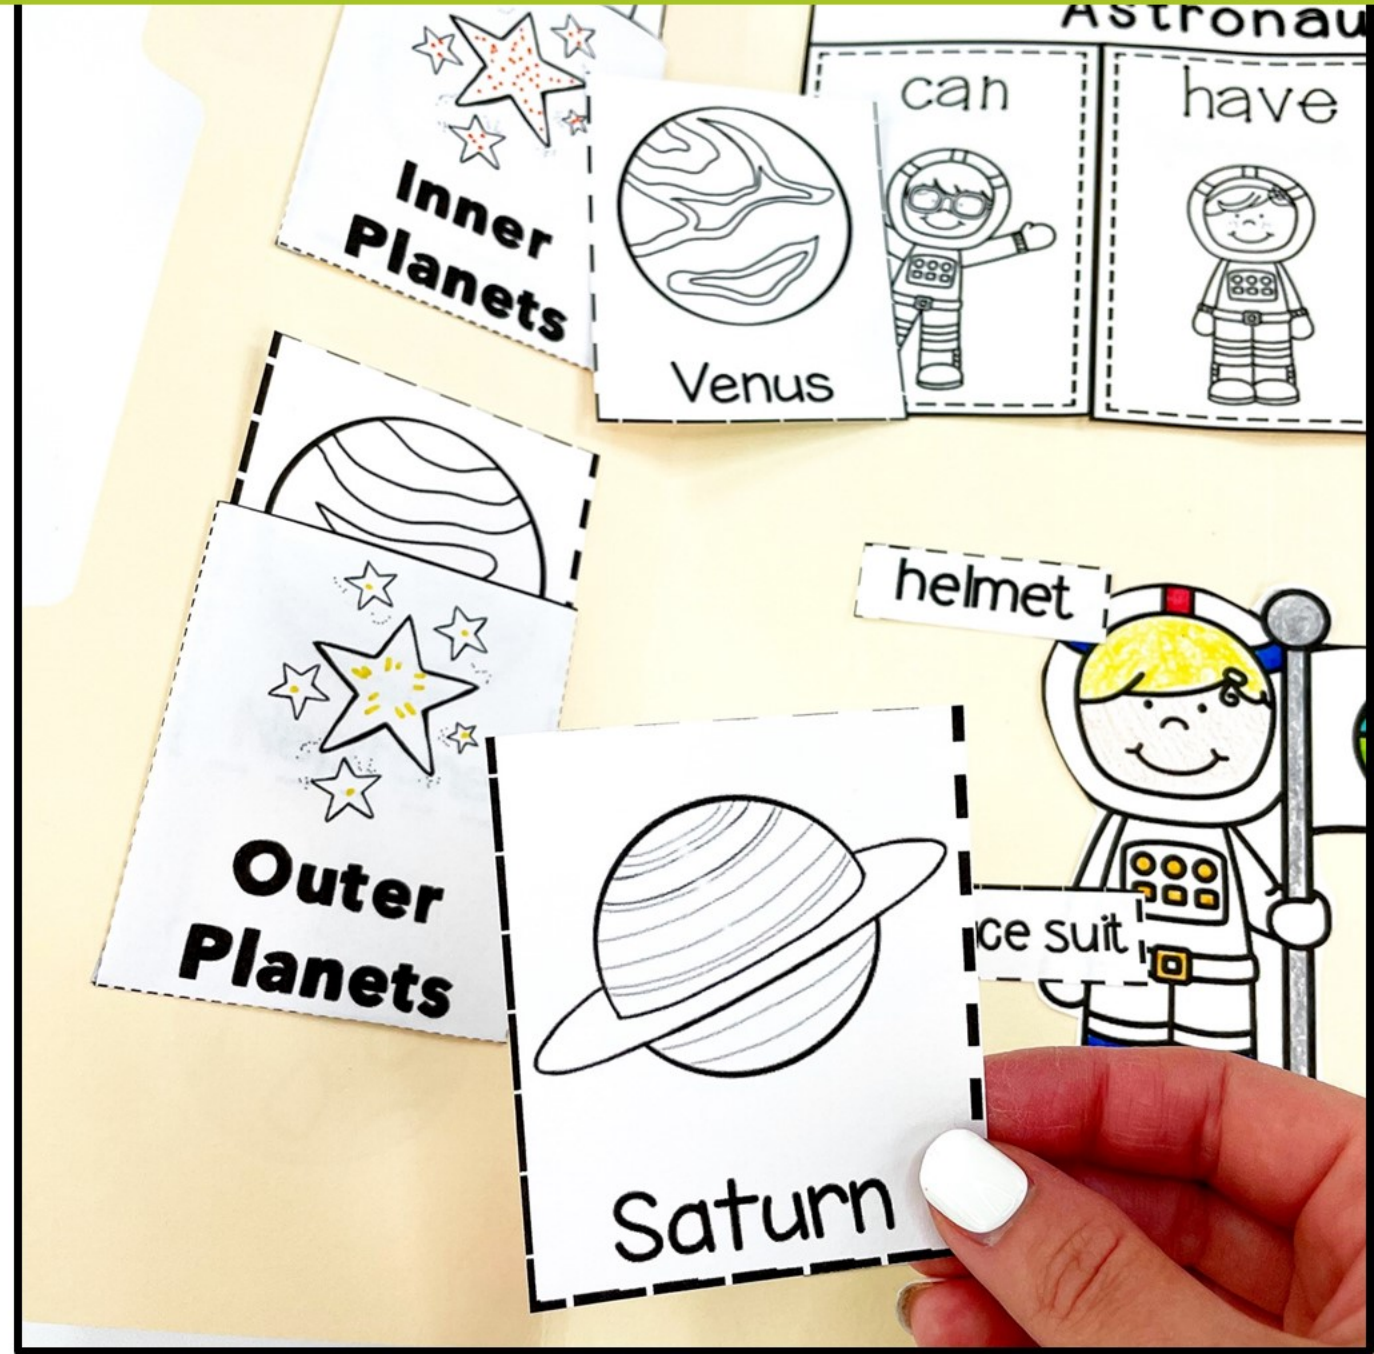

Planets Research Book

Space Vocabulary

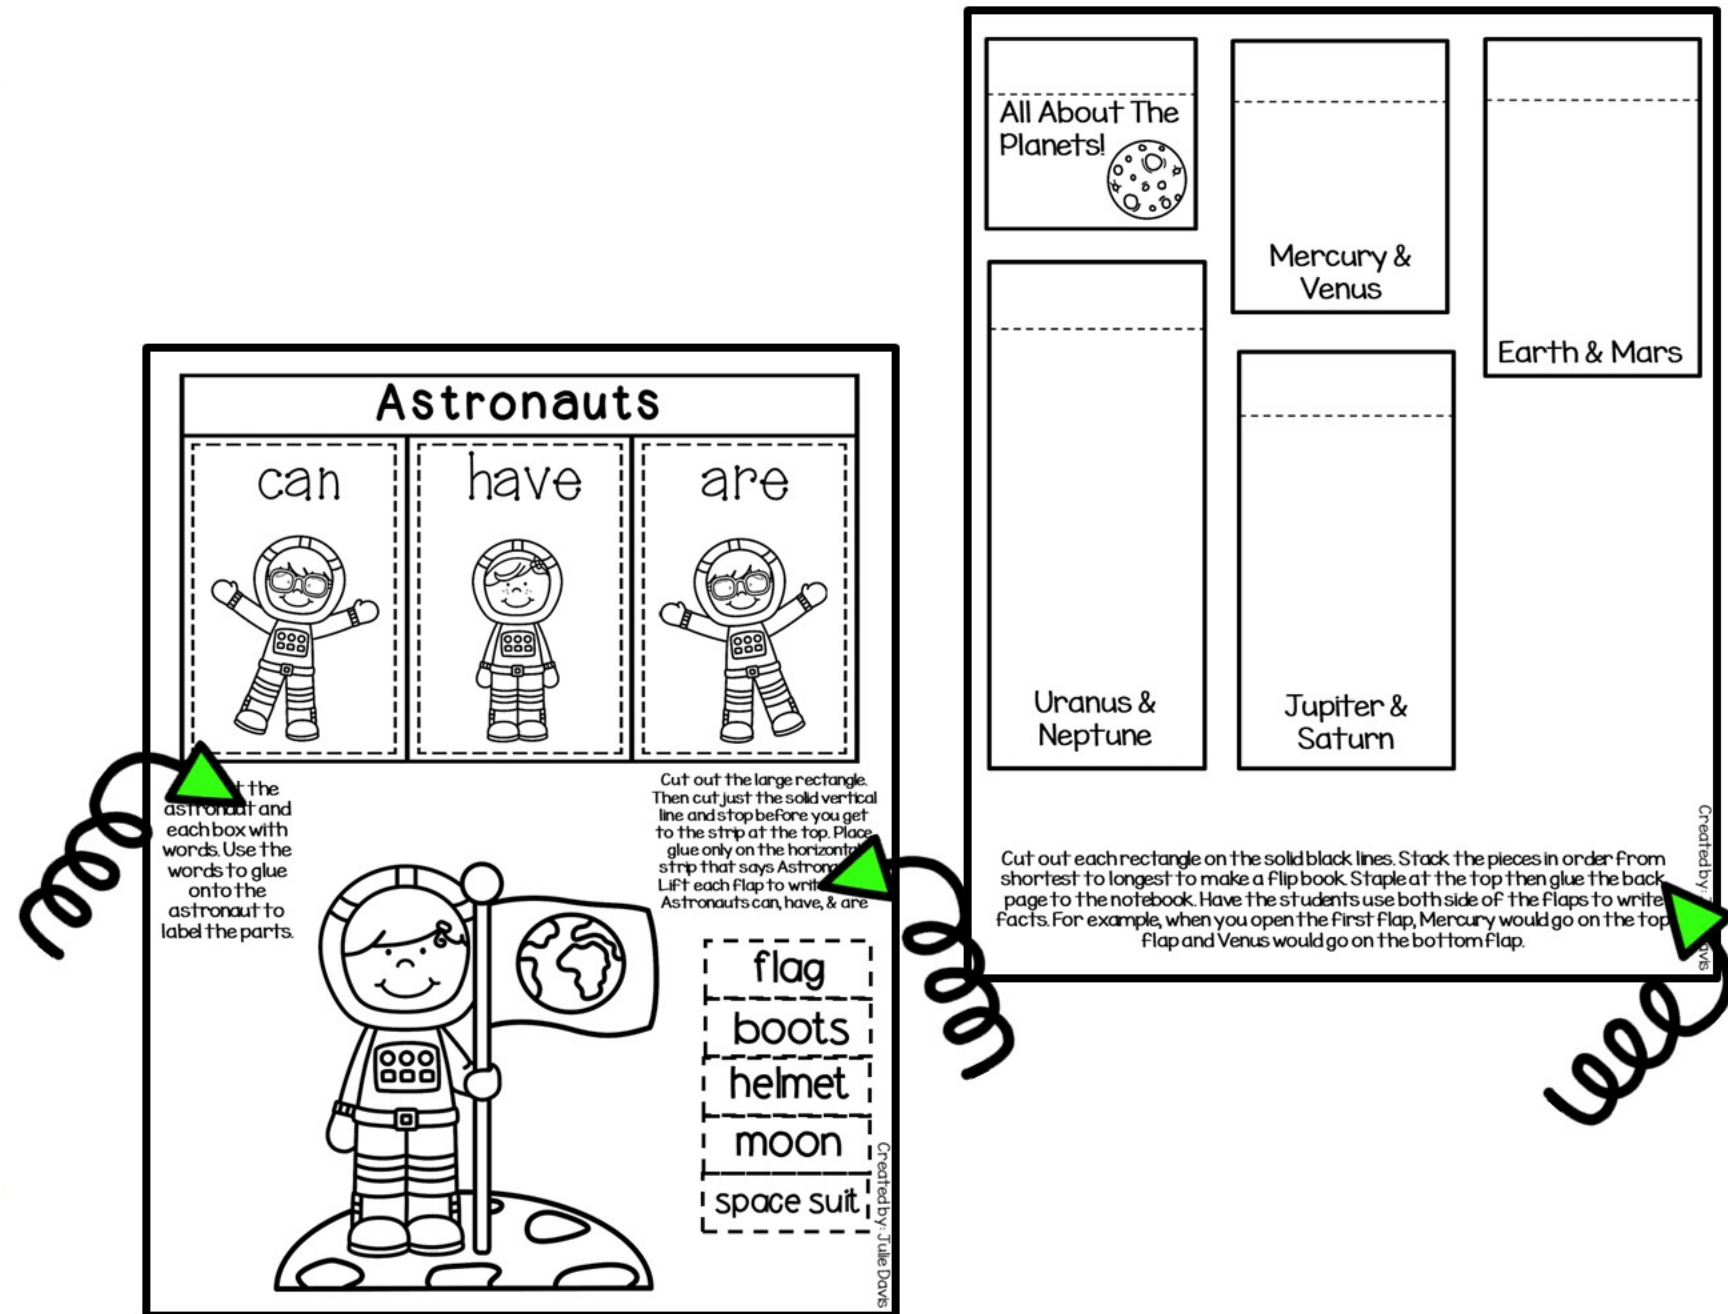

And More!!!

# What's Included:

Each template has step by step directions to tell you how to cut and fold each flap!

# What Teachers are Saying...

"After trying to pick and choose between other lapbooks about space, I found this and I am so happy I did! It covers all of our topics in an easy fashion and it is super simple to follow along with. Thank you!"

"My kiddies loved making this lapbook. Its a great consolidation to our space theme - and its great how everything just comes together in a visual way for the kiddies!"

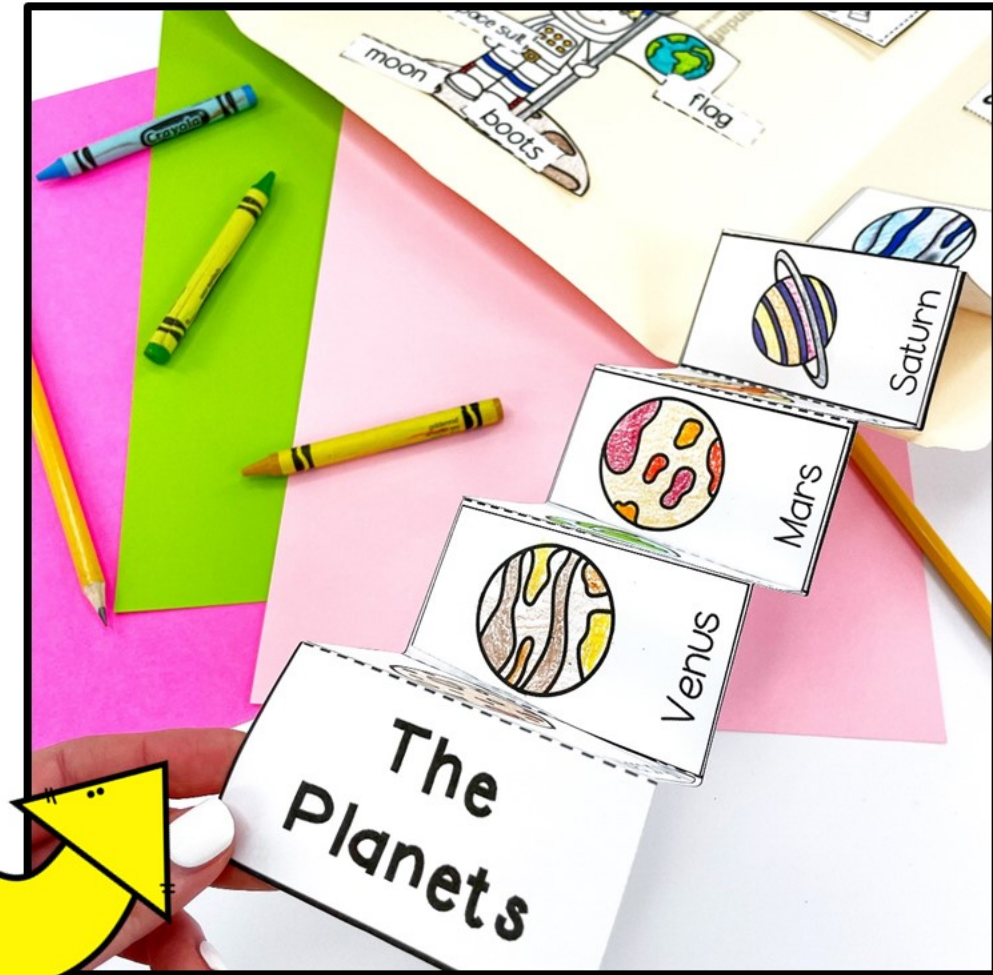

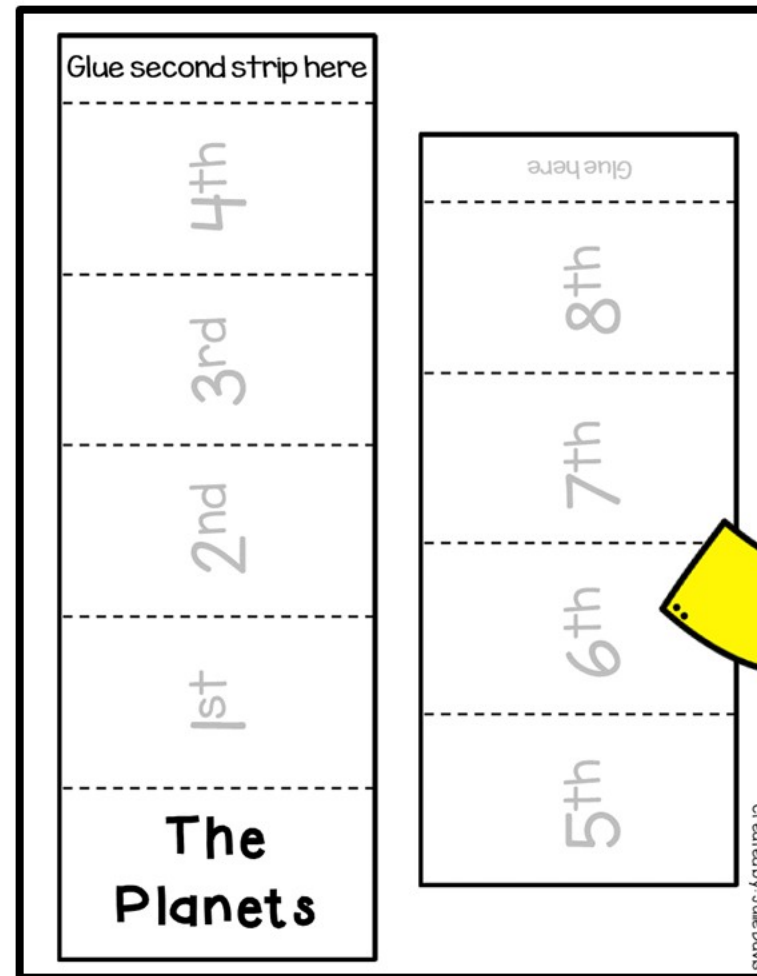

"I love this and so do my students. We have been learning all about space according to their interests and we have been using a few pages from this each week in the optional writing area. They have proven to be really useful as a writing stimulus and great fine motor practice with the cutting too."

# Easy to Make and Assemble

Simply print the templates and let your students complete and create!

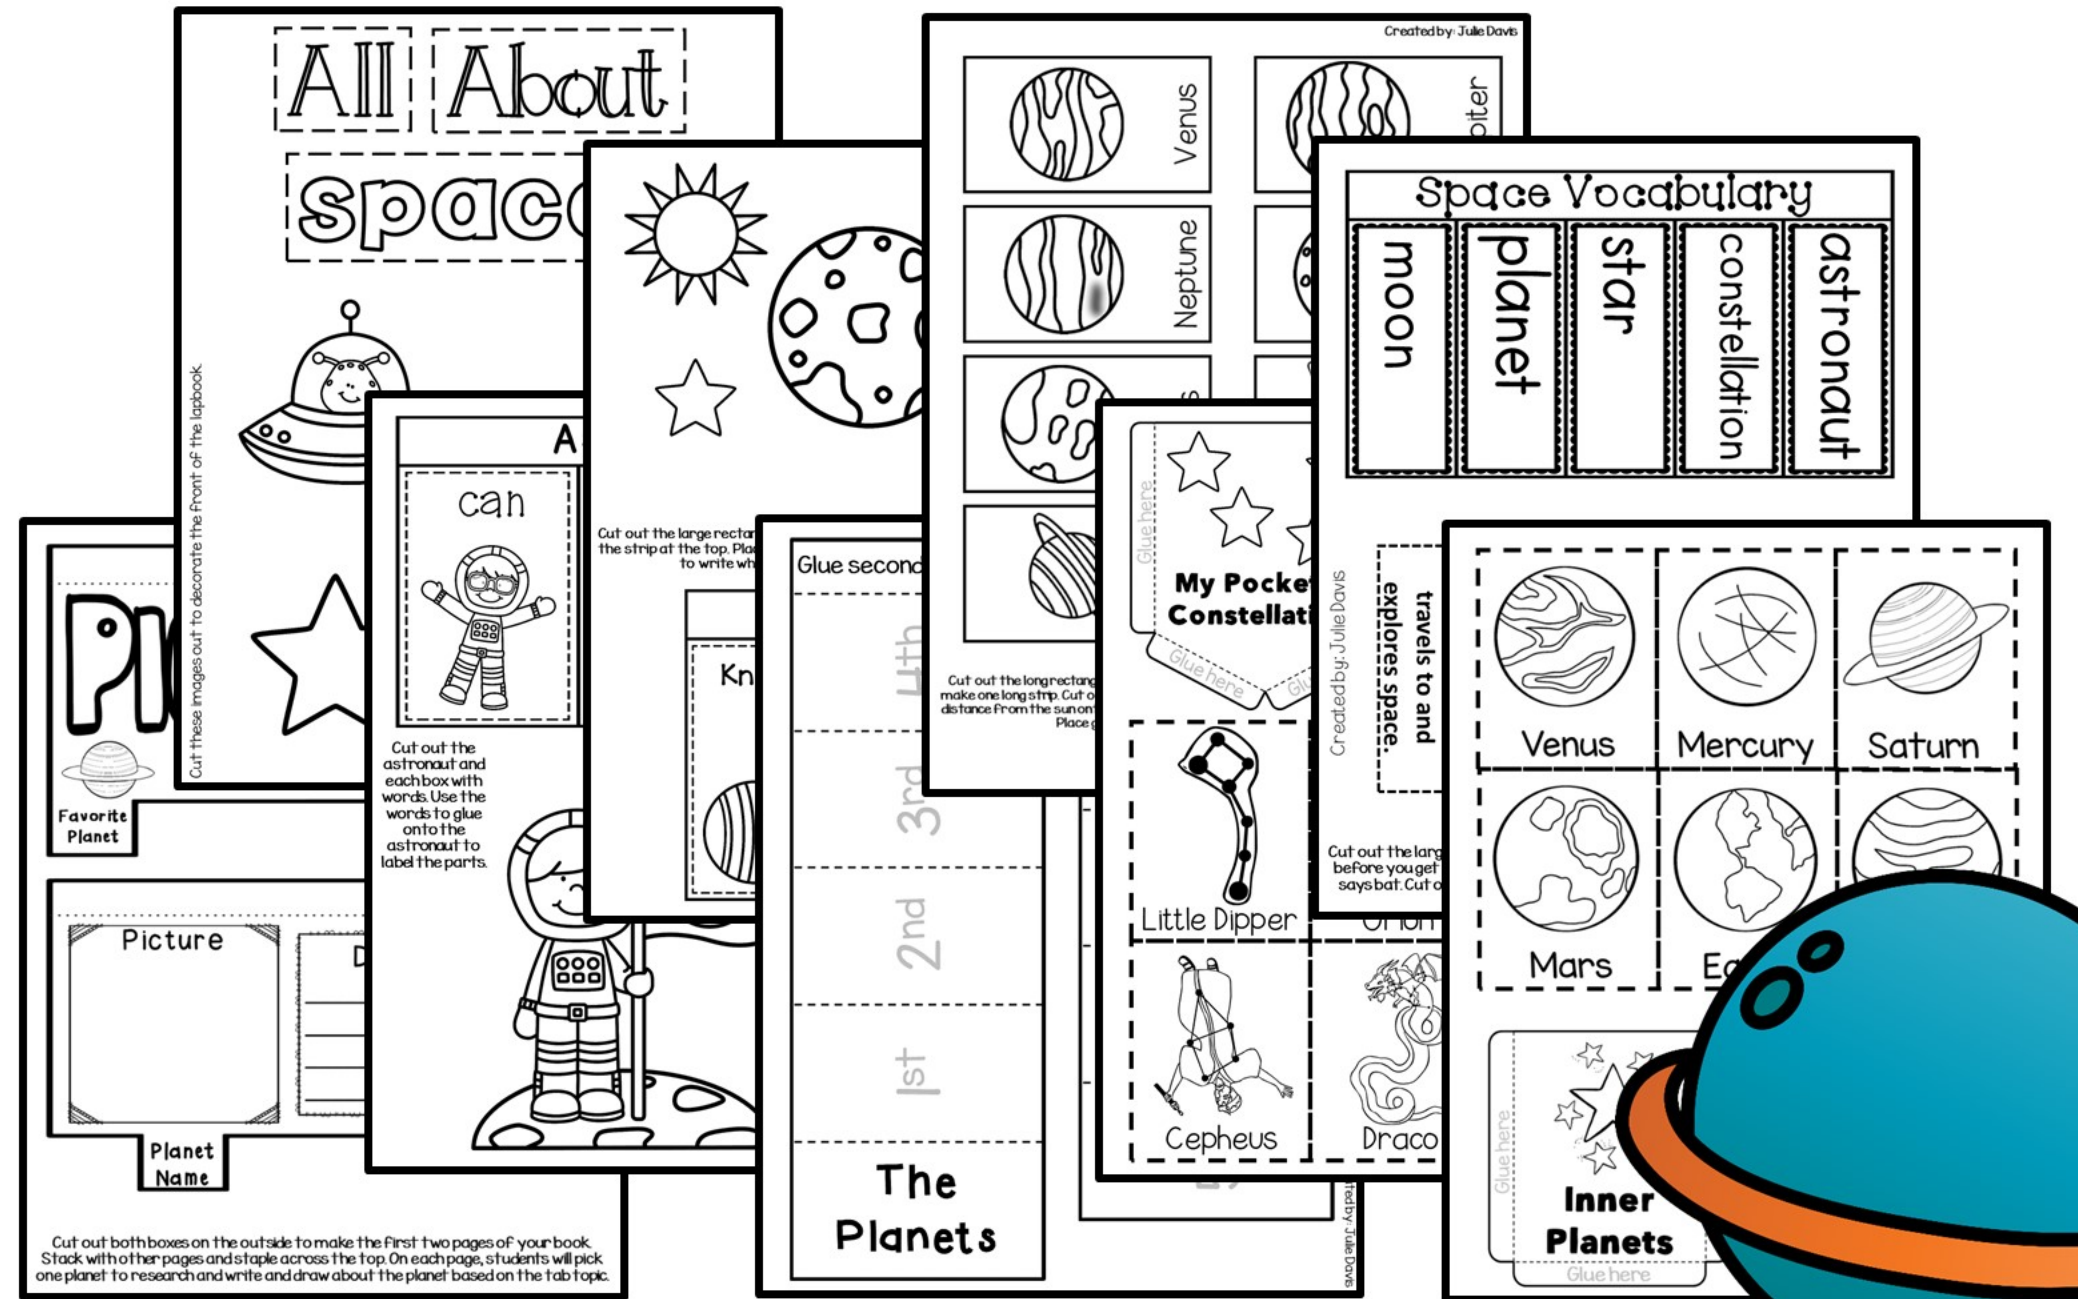

These templates go just beyond a worksheet. They become interactive!

# Printable Templates

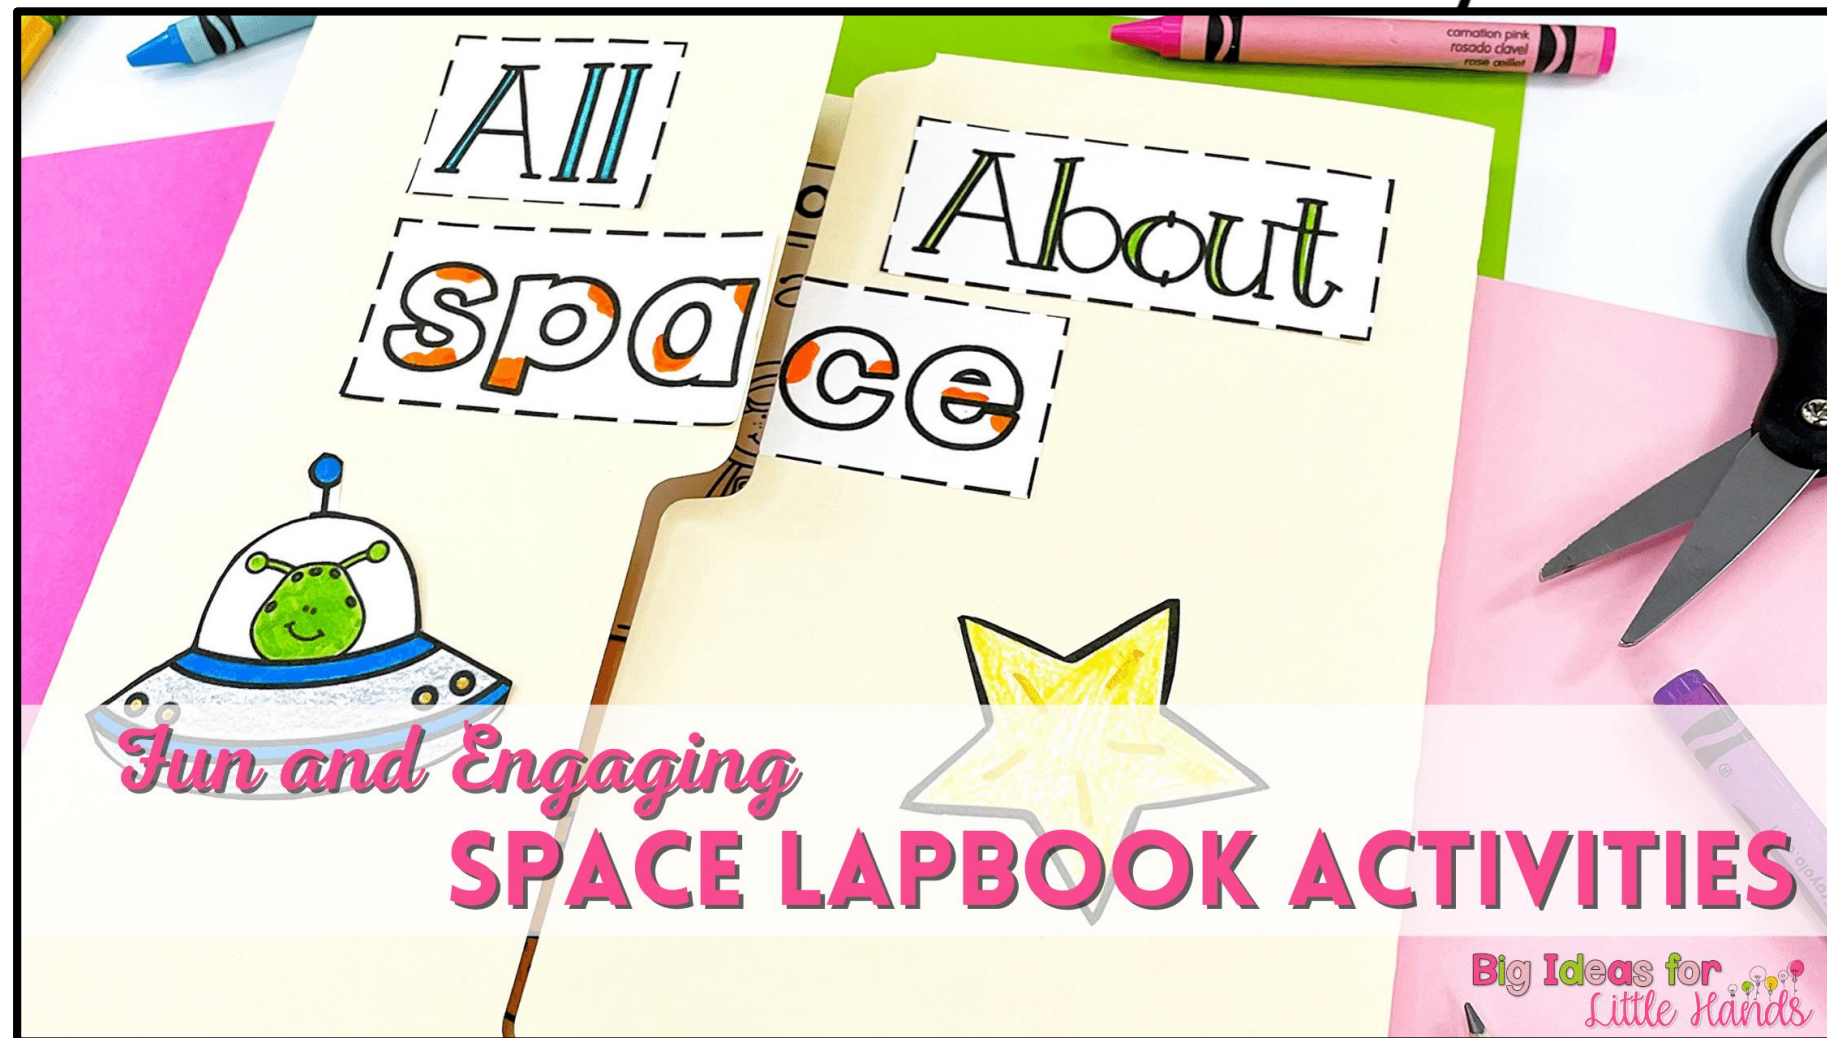

Lots of templates included to use in the lapbook. Pick and choose which ones work best for your students.
